\* subject to change

## Performance Enthusiast

The Concept 36 Open Deck Series is designed for the ultimate in performance with an angler friendly center console layout.

The deep-V stepped hull glides through choppy water and produces a slick, smooth ride, while aggressive chines enhance directional stability and direct water down and away from the boat to keep you dry. Ample storage compartments and fish boxes mean you can bring along everything you and your crew need, while keeping your catch iced down all day.

Available with a t-top for avid fisherman or a radar arch for the performance enthusiast, the 36 Open can be customized to fit each owner's individual lifestyle. The open deck layout offers a variety of seating choices including a sun pad and various upholstery and color options. The finished console interior is available with an optional head, while the helm can be outfitted with your choice of marine electronics.
